Busan, South Korea

LPGA International Busan

Jeeno Thitikul

Quick Quotes

Q. We're here with Jeeno today. In the third round, you went 8-under par, leading up to 4th place. How are you feeling right now?

JEENO THITIKUL: Feeling great. Like, I've been hitting good for the past three days. But couldn't make a putt for the plus-2 round. But make more putts today on the third round, which is the nice.

Q. Some players are just going to succeed, so some believing that you'll climb up the leaderboards today. So did you share the same belief in the first two rounds?

JEENO THITIKUL: I mean, like I said, I've been hitting pretty good. I'm not really thinking about the one at all, because, like, I can't make -- I can't make putt at all.

But I hit it so good. I mean, when it's -- like when I finished today, I knew that it, like, came up to the leaderboard, which is like -- so I really wanted to end the week as well, be in contention, week in, week out, which is really good, because it's kind of like my experience, get into it, those pressure kind of things, you know, the leaderboard is the one that we're looking forward to climb up.

Q. (Foreign language.)

JEENO THITIKUL: My putting is good today. It's, like, windy. Yeah, I think the greens -- I mean, I think it's kind of a hilly course on top of the mountain. I think the speed and the lies should be really perfect to get into the hole, which is I really figure it out after my first true round.

I mean, today, I thought just try less to, you know, making it in. I just putt to where I wanted to and then just get the lie, and as much as possible, because, like, I always kept, you know, like, under-read it.

So, yeah, today was a little windy. So I think some hole we get that one edge of it, but some holes we just have to hit ball longer than the past two days.

Q. Lastly, I want to hear how are you preparing for

BMW Ladies Championship

the final round mentally or physically?

JEENO THITIKUL: You know, I just -- I think focusing is the most important key for me. I've been really focusing on the targets that I want to hit, not really afraid of once it's going to go left or right. But I just really want to hit into my target.

I think the past few days or past few weeks, it's been really good. And then if I can keep that in my mind, my mindset, I think it should be good tomorrow.
