

Palos Verdes Championship presented by Bank of America

Sunday, May 1, 2022

Palos Verdes Estates, California, USA

Palos Verdes Golf Club

Hannah Green

Quick Quotes

Q. All right, Hannah, two weeks in a row in the final grouping. Some positives to take a way from the Palos Verdes Championship?

HANNAH GREEN: Yeah, definitely. Felt pretty flat out there, but made a good birdie on the par-3 down the hill, 13 I want to say it is.

And then just hit a bad shot on 17. I never really gave myself close chances and it did get quite bumpy out there. Super happy with the results.

Feel like I always play well in California so it is nice.

Q. You've been saying also your game just keeps trending in the right direction. Does it feel like one is on your way for you?

HANNAH GREEN: Yeah, definitely. I definitely feel that. I feel like I played good and I played bad this week. Like this weekend obviously shooting over par is not ideal, but the more you put yourself in those conditions the more you get used to it, and hopefully can excel that one week.

Q. What will you take away from here? I know we won't see you here for a little bit as you head back to Australia tonight. What do you take away from this week that you'll focus on when we next see you?

HANNAH GREEN: Yeah, I'm excited to get back out there. I'm excited for that. We have a great stretch of events coming up, playing the match play, and then obviously U.S. Open, KPMG I'm very excited for.

Hopefully I can get some good results in those majors and maybe even a win.

Q. How important is it to kind of take that week in Australia when you go back just to kind of reset as you head into that summer swing?

HANNAH GREEN: Yeah, definitely need it. It's a really

good schedule this year, it's unfortunate that I can take one week off and actually gain three. I'm excited to get home, and I'll be more excited to get back out here, I think. I think just need the reset. Just need to, yeah, get away from golf sometimes.
