CHAMPIONSHIP

Q. Jeeno, I'm sure there is some disappointment coming up a little bit short today. Did you know where you stood coming down the last couple of holes? That 17th was kind of pivotal in the end.

JEENO THITIKUL: I don't know. I have no idea like what other people are doing. I just trying to do my job the best and then, you know, like it's a really makable course, so I trying to make birdies.

Q. Can you tell us what happened on 17 with that second shot and then the chip shot there?

JEENO THITIKUL: I think the second shot was so above my feet. I don't want it to go right of the pin because it's going to be hard to bounce back, right? And then I thought it wasn't going to take too much left as that much, so it's just like too much left and then it's kind of hard shaping shot there, just grabbing too much.

And that's pretty much it. I think it's just experience. I don't think I do anything wrong. Just technique-wise just some mistake.

Q. You said you were working a little bit on your golf swing coming into this week. This is a good result. Even though you didn't get the result, it's still a second place finish. What do you take from this week?

JEENO THITIKUL: Just take a really positive, especially the final round that I have, especially the front nine that I have. I mean, I do look at my stat that is like my -- like final round wasn't that good as the first couple round, but I just prove to myself that today I can go low on the final round as well.
