ZANE DENTON: I think today we just ran into a very hot team and a good pitcher, but I think we just got to wipe today clean and focus on tomorrow.

Q. Zane, I wanted to ask you about the pitching staff, and how big have they been so far this week, and how important is it to see them have success for you guys to move forward into this tournament further?

ZANE DENTON: They've been incredible so far. It's really good to see. I thought Dylan was amazing today. Florida is a really good hitting team. If we can keep this pitching up the rest of the tournament, I think it puts us in a good position.

Q. You mentioned kind of wiping this game clean from your mind and focusing on Tennessee for tomorrow morning. It is an elimination game, do-or-die game, and you guys just beat them. What is the mindset of the team focusing on tomorrow, knowing this is an elimination game, and you have to put your best foot forward tomorrow?

ZANE DENTON: I think we're pretty confident, understanding we ran into a hot team today. But we've been playing pretty well lately. We've got to wipe today clean and focus on tomorrow. We feel pretty confident against Tennessee.
