

# Miami Dolphins Media Conference

Friday, November 12, 2021  
Miami, Florida, USA

## Albert Wilson

Postgame Presser

Dolphins 22, Ravens 10

**Q. Albert, you had a really strong start in training camp, and then got hurt. How did tonight feel to really make an impact?**

ALBERT WILSON: It felt great. It felt great to get back out there and pretty much be involved and, you know, bring what I can bring to the offense tonight, so it was good. It's a blessing to be back out there for sure.

**Q. Albert, what happened on the long reception? It looks like you were more than wide open.**

ALBERT WILSON: It was a look we were getting all night, and I just put the speed on to see if he was going to see me. He happened to see me, and it worked out pretty good.

**Q. That was basically mine, but I was going to ask you it. Continuation with that. I was basically looking for you to high-five someone. How does it feel to get back on the field and really produce out there?**

ALBERT WILSON: It's been great. It's been a long journey since the season started for me. I'm just happy to be able to provide for the team and get out there and do what they need me to do.

**Q. How would you describe sort of the vibe that was going on when Tua entered, when Tua came?**

ALBERT WILSON: It doesn't make a difference. We're going to call the same plays as it was if Jacoby was if there. We know both of them are starters in this league, so we're comfortable and confident with either one.

**Q. How do you think Tua did?**

ALBERT WILSON: Great. We got the W. That's all that mattered.

**Q. With the training camp you were having, is this what you envisioned in before you had the injury and then sidetracked things a little bit?**

ALBERT WILSON: As far as being involved in the offense? Of course. I'm here to make plays and do what I can for the team, so, of course, I plan on being a part of the offense every week, but it goes how it goes.

**Q. When you say you put the speed on, was that during the jet sweep?**

ALBERT WILSON: Yeah, I was tired as soon as I got the ball. That was a long jet sweep, for sure.

**Q. I know you said it was a look you guys have been getting. Were you surprised to be that wide open, though?**

ALBERT WILSON: For sure. We ran the play a ton of times the whole game, so it's just different looks, changing your speed before the play, continue with it up the sideline kind of made it look like a different play. It was cool.

**Q. What has happened in the last month? You started playing early in the season, and then kind of disappeared, and then there are some -- do you feel like you were practicing at the level you were supposed to?**

ALBERT WILSON: Yeah, I think I've been practicing great for the past -- since I've been out there. It's just got to get things going. Sometimes things don't fall in place like they should, and tonight was one of those days it fell in place.

**Q. Do you think that the two consecutive victories combined with a little extra rest for all the players, what do you think that can do for the team?**

ALBERT WILSON: I think it's going to give us some great energy to go off and get some rest and just have us anxious to come back in and get back to work. That's a good thing.

Appreciate you all. God bless.
