Baltimore Ravens 28, Miami Dolphins 6

**Q. I guess how does it go this way for a team so shortly after the effort that you guys did on Sunday?**

JORDYN BROOKS: Turnovers. We got to capitalize when we get down to the red zone. We just had too many turnovers today and I feel like that really hurt us.

**Q. What was Lamar Jackson like going up against. He threw four touchdowns and Derrick Henry is constantly pounding at you guys?**

JORDYN BROOKS: I mean, I thought they had a decent game but a lot of that calm towards the end of the game. The game was out of reach. A lot of garbage time, to be honest with you. I felt like we played well defensively in the first half, but like I said, turnovers, that kills you. Not capitalizing, not scoring when we could, giving him the ball back, giving him an extra set of downs. Players like that, they're going to find a way to get in the end zone.

So got to capitalize when we have a chance to and play complementary football.

**Q. You mentioned the run game, the first half like David said, it was really well... the run defense, exudes me. What happened this the second?**

JORDYN BROOKS: Like I said, he got a lot of his yards in garbage time.

**Q. They only had 30 yards rushing in the first half and you guys gave them 235 yards, so like 109. Do you feel like you, when you're down 14-6, do you feel like you're out playing them at that point?**

JORDYN BROOKS: Absolutely. That was the mindset coming into halftime even though the score was what it was. I felt like we were playing well enough to win the game, but at the end of the day, it's always going to come down to turnovers. Giving them the bag when they

shouldn't have it. Not scoring when we should. It changes the game. It changes the momentum. It changes the spirit, everything. Until we learn how to not beat ourselves, we're not going to win a football game.

**Q. What was your understanding of what went wrong when Mark Andrews got away for his second touchdown and Minkah and Dante Trader collided in coverage?**

JORDYN BROOKS: I'm not sure. I was somewhere in coverage, so I actually didn't see it. I'll have to see it on the film.
