**Andy Reid**

Visitors Postgame Press Conference

Seahawks 33, Chiefs 16

ANDY REID: A few injuries here. We'll see how they turn out. Jack Cochrane, knee. Nazeeh had a shoulder. Again, we'll have to see with the MRIs and things that go forward here.

Nohl Williams had a concussion. Mike Edwards hamstring. Felix had a hamstring. Then Omarr came out and went back in.

This is a good place to get some of your young guys some reps here. They always have good crowds. It's a great environment out here to see what you've got.

A lot of these guys are battling to make the team. We were able to get them in there so we can evaluate them. I thought this game here, that was most important.

The ones will get a little more time next week as we go forward on Thursday, so...

But again, there are always some good things, but a lot of things we can learn from here, too.

**Q. With your reference to the ones, this is more about next week. Patrick, is he likely to play next week?**

ANDY REID: I'll give you all that as we get closer. Yeah, there's a chance to get more work.

**Q. You're talking about the evaluations tonight. Did you get a chance to lock in a little bit on Simmons at all again?**

ANDY REID: Yeah, he got a few plays. Looked like the offensive line did a pretty easy job. They had a good game, too. Thought he handled things well, made some nice throws, checks, all that stuff.

**Q. Any impression of Kingsley tonight?**

ANDY REID: I think the offensive line did okay. I think. I want to take a look at it and see. I thought they did okay, that group.

**Q. Skyy's night changed dramatically with the punt return.**

ANDY REID: Yeah, listen, drops, not like him. He's a lot better than that. He had three kind of bobbles and drops, special teams and with throws. Came back with a big play, so... I'm proud of him for that.

It wasn't his best night up to that point.

**Q. One thing that struck me as unusual, it looked like Drew Lock came to you as you were leaving the field. Did you have a nice exchange with him?**

ANDY REID: No, I did. Obviously with his dad, all the things that went on there, he was getting bombarded with things. Sent him a message. He got it. He appreciated it. A good kid.
