**Q. Sepp, back in Augusta. First impressions of your game, how you're feeling.**

SEPP STRAKA: Yeah, it's great to be back here. Always good to be here in April. Yeah, course is great.

It's actually not as soft as I expected after all the rain we got yesterday. I think that will be good for the next days coming up?

**Q. We keep talking on weekends on the majors especially; there is a reason for that, especially here. What have you learned from past experiences that you want to be able to apply here?**

SEPP STRAKA: Yeah, any time you can play here competitively it helps, especially with strategy on this course. So many intricacies because the greens are so sloped that just angles matter a lot more here than at regular PGA TOUR events I would say.

Any time you can play competitively with tournament pins and conditions it's always huge for experience.
