

Keegan Bradley

Quick Quotes

Sunday, April 12, 2026

Q. First question is what the hell were you doing the other three rounds?

KEEGAN BRADLEY: Well, I mean I played pretty good yesterday. Made two doubles on 13 and 15 each, and then front nine on Thursday I shot 40. So, you know, it was just like couple bad stretches of golf. I played pretty well other than that.

Q. Talk about today. Did you find something or you feel like you were playing well with just a couple hiccups here and there?

KEEGAN BRADLEY: I truly felt like I was playing really good golf. I don't know I really have double around here. I don't know what it is. Today is my low round out here ever so I'm proud of that. Really proud of the way I finished. It's going to get tough out there. Greens are baking out.

So that's a really solid round.

Q. Seems like a little more wind. Is that making a difference, too?

KEEGAN BRADLEY: Yeah, it did. The greens on the back are starting to get like pretty proper, so the wind and the dry conditions are definitely going to make it tougher.

Q. And since you struggle around here do you not look forward to coming here or do you and hoping to figure it out?

KEEGAN BRADLEY: Yeah, I always feel like this is going to be the year type thing. But I've never gotten off to a good start ever. Like I can't remember a time I shot under par in the first round which is tough.

You know, I feel more and more comfortable, but just for whatever reason it's a tough a place for me.

Q. Can you equate for us what it must be like for the guys like yesterday as an example, six-shot lead going into the third round and you let it fritter away and then you have to come back out and do this again today tied for the lead. What's that like?

KEEGAN BRADLEY: I mean, listen, this is the Masters, too. This is -- I think this is a notch above all the majors. There is so much at stake. The history. It's going to be one the toughest rounds of golf they've ever played but reward at the end if you can do it is the biggest in our sport.

Q. What size jacket are you?

KEEGAN BRADLEY: I don't even know. Hope someday I'll find out hopefully.
