

# NFL International Series

## Falcons vs Jets

Sunday, 10 October 2021

### New York Jets

## Corey Davis

### Postgame Press Conference

Falcons 27, Jets 20

#### **Q. What are you seeing in the beginning of games?**

COREY DAVIS: See the same thing. There's a lot of things we're doing to ourselves. I mean, obviously have to give credit to them, playing like they did. But they didn't do really anything to stop us in the first half. It was all us. We've just got to eliminate that.

#### **Q. This has now been a month of these struggles. Are you over thinking anything?**

COREY DAVIS: We've just got to settle in, honestly, especially in that first half and relax. When we come out in the second half, it's like, it's obviously a whole different ballgame and it's a different energy. So if we can have that in the first half, we have a better chance.

#### **Q. On the outside, do you think the first drive should be the best one, because that's the one you're practicing all week, have you felt good in practice and now that first drive is going to be good?**

COREY DAVIS: Great. We feel great about it. Obviously we get out there and it's different, but our preparation is great. But we've just got to do better on Sundays.

#### **Q. You've played a lot of football. Is there something that you guys have practiced or not changing enough?**

COREY DAVIS: I mean, like I said, you can't really over think it. We just have to get back to work and focus on the details. They go a long way.

#### **Q. Overall going into the bye week, what's the mood in the locker room and as a leader, how do you think you guys are going to take the next step moving forward and turn this around?**

COREY DAVIS: I mean, the thing is, we know we're a better team than 1-4, so that's what the energy is like in the locker room. Dudes are disappointed and angry, all

types of emotions, because we know we're better than what we are displaying. We haven't even played our best ball yet. We have to go back to the drawing board and don't press the issue.

#### **Q. Going three-and-out, three-and-out to start the game?**

COREY DAVIS: It is deflating but that's my job as a leader and the entire offense to stay in it when we do have those three outs and not let it deflate us and not let it defeat us like it did today.

#### **Q. Is it hard, the defense having a great first half, is there any kind of moral victory -- is there any part that says --**

COREY DAVIS: Yeah, staying positive. We didn't get beat by too much. We definitely left some points out there and like I said, just got to hone in on smaller details because they go a long way. We definitely left some points out there.

#### **Q. You've won before and you had pretty good performances, but other weeks where you've been more quiet.**

COREY DAVIS: You've got to be consistent and we've all got to be consistent with how we work and how we approach the game. Especially in the first half like we've been talking about. We just have all these really slow starts and are behind in the second half and then we play catch-up. There's not a lot of quit in this team. We are going to fight till the end but we've just got to start faster. That's what it is.

#### **Q. If there was one pass today -- do you feel like you should make those --**

COREY DAVIS: I feel I can I should make every catch.

#### **Q. Some of them are above your head, you're not catching that ball. Do you feel there's a catch you should make --**

COREY DAVIS: I feel like I should make everything. Throw it my way; they are trusting me to catch it; got to make it.
