Q. Justin, also kind of similar question I asked Patrick Queen. To be able to come here and deal with the schedule, how rewarding is it to get the win?

JUSTIN MADUBUIKE: It's a good feeling. I feel like special teams, offense, defense, we all were clicking. Obviously not the perfect game that we wanted. Rarely is it in that case.

I'm glad we got the win, especially coming all the way from the United States to here, dealing with just the differences and stuff like that.

It feels good to get the win here.

Q. Along those lines, John Harbaugh told us Wednesday about the team meeting you had, you're a good team with the chance of being great. Did today feel like a step forward or more of the same?

JUSTIN MADUBUIKE: No, definitely not the same. A step forward. Every time we get a win, I feel like it's a step forward.

There's definitely things we need to clean up, but definitely a step forward in terms of just execution, dominant especially on defense.

Definitely a step forward, for sure.

Q. What was working so well for the pass-rush? For you personally, how much are you enjoying sometimes playing on the edge?

JUSTIN MADUBUIKE: I love the edge. Anywhere on the defensive line, nose tackle, end, I enjoy it. I just love playing defensive line first of all.

Second, I feel like in the pass-rush, just communication. Kyle communicating with me, Jadeveon communicating with me, Mike, Trav. Everybody being on the same

page, everybody having the same mind frame in order to attack the offensive line on the opposing team. I think that's what helped us execute at a high level.

Q. What is it like going up against a guy like Derrick Henry? And other than one long run, you seemed to do a good job of keeping him in check today.

JUSTIN MADUBUIKE: He's a good player. Definitely one of the favorite players in the National Football League. He gets his respect.

But it was definitely an emphasis throughout the whole week to stop him at the line of scrimmage. Definitely got that good, explosive run. Outside of that, I think we contained him pretty well.

Q. How would you describe your experience playing in London in front of the European fans?

JUSTIN MADUBUIKE: It was fun. It's definitely more fun when you get a dub, when you get a win. It was fun. Practicing here, seeing the city a little bit, then definitely focusing in practice to get a win on Sunday is what we planned to do. That's what we got done. We're going to enjoy it, but we have a tough opponent next week, too.
