Miami Dolphins

Ollie Gordon II

Postgame Press Conference

I feel like we stayed connected as a unit, and that was the best part about it. We didn't let anything distract us, and we continued going for it.

Q. Seems like you're coming into your own right now. How has it been so far?

OLLIE GORDON II: Like I said before, I feel like it's great because of the people we have in the room and the vets we have on the team and the coaches we have. Just our coaches being able to trust me with certain things we do, I feel like that's huge. My vets helping me out and teaching me the ways of the league. I feel like with those two things, you can't go wrong with it.

MIKE McDANIEL: Talk a little bit about how well you're coached.

(Laughter).

OLLIE GORDON II: I would say that I feel like I'm coached well. Might be a little bumps in the road, but I feel like I can talk to you all about anything. I'm cool with it. We're good.

Q. Congrats on the win. How good did it feel to score a touchdown in an international game team win?

OLLIE GORDON II: I would just say, like Chubb said earlier, we played great complementary football. Defense had our back. Special teams had our back. On the offense, O-line was on the job today. They did great. They had a hat on a hat for everybody. 1 is always going to lead us in the right way. Shout out to him for that. As a team, we all played great together.

Q. (No microphone)?

OLLIE GORDON II: I would say it got loud in here. I wasn't expecting it to get that loud. A bunch of fans travel well. I seen a bunch of Miami jerseys in the stand, so that's a good thing always.

I feel like the atmosphere was good, just having it loud in there. It's always loud at games, but I feel like here it was different.

Q. (No microphone)?

OLLIE GORDON II: I feel like, as long as we just stick together and be ourselves, everything will be fine. Don't listen to the critics, don't listen to the outside noise. As long as we keep building bonds with each other, we'll be fine. Continue forward and know that we lean on each other and not anybody else, and we'll be good.

Q. (No microphone)?

OLLIE GORDON II: I would say that week trips are always crazy. I feel like you've got to delete the distractions and be able to connect as one. So it was a bunch of guys around the hotel hanging out, talking, everybody going over everything.
