Cincinnati 4, Toronto FC 3

JONATHAN OSORIO: Disappointed with the result, but the performance, something to learn from, as well. They showed why they are a contender, and they were able to stay in the game and find a way to win. These are things that we have to take away and move forward.

Q. What was the conversation and what were you saying to each other?

JONATHAN OSORIO: Oh, it was just -- kind of a message for us, like a mixed message, positive, and we feel that we are improving and that we are heading in the right direction, but there are things to improve. We're working hard and now we have to focus on Wednesday.

Q. Inaudible?

JONATHAN OSORIO: He's been a great player for us all season. He's been a threat on a couple of occasions in set pieces and today, he found his way to get one in and it was a great finish, honestly great finish. It's great because he helps us a lot with the ball and recovering it, and making tackles and things like that, but to help us on set pieces, it shows how big of an impact he can be for our team.

Q. And your take on Lorenzo?

JONATHAN OSORIO: You know, that's our guy. That's our -- one are our main players, and he showed his quality today. He has so much quality. He's shown it throughout his career. He's a champion, and today he showed it. Today he showed it, the will that he had to win was really contagious. You know, he just spread it throughout the team. Yeah, with him on the team, you always believe that you're in the game and that you can come back in a game and win a game.

He had a great performance today and I think it will be really good for him moving forward as well.

Q. How are you feeling?

JONATHAN OSORIO: I feel good. It's fine. The injury is perfect. It's just about building back that muscular endurance.
