Daniel Jones

Press Conference

DANIEL JONES: You know, I always want to play. As a player you always want to play. It's a decision, Dabs has to make and I'll be ready for whatever he decides.

Q. Daniel, could you assess how you feel you did today and how the offense did?

DANIEL JONES: For the most part thought we executed well. Thought throughout the team drills we moved the ball and executed.

I think obviously want to finish a little better with the two minute there at the end. Overall thought we executed well against a good defense.

Q. Does the feel of the day change a little bit if Malik throws in that deep ball in the two minute?

DANIEL JONES: Yeah, I mean, I think if we finish that two minute with a touchdown, we definitely feel different.

We all got to make plays. Stuff like that's going to happen. You know, we had a chance to come back and still convert so we got to do that.

But, yeah, certainly feels different if we convert that two minute situation.

Q. Daniel, do you almost feel like you're still trying to find this offense and go kind of play to play, seeing what you are, what you have, where you guys are?

DANIEL JONES: Yeah, I mean, if the question is are we still improving, certainly. I think we're still building and growing. That's the goal always. I think we've made considerable progress and I feel like we are in a good spot.

But there is there a high sense of urgency to continue to improve and get to where we need to be. So feel like we made progress. I think we're working and improving.

But, yeah, always looking to take the next step.

Q. Would you like to play Saturday night?
