Q. Do you think it's fair to say that Pakistan from a mental perspective in this tournament have not gotten over the loss to India?

NASEEM SHAH: No, I don't think so because everyone is professional and everyone knows about yourself. We lose against India, but I don't think anyone is thinking about the India game because as a professional you need to think about -- you can't think about the past when you lose, then especially you can't be thinking that.

After the India match, everyone was positive.

Q. The fast bowlers have had a big say in this tournament so far. You toured here a few years ago for test matches. Have conditions been different than you expected in Australia this time, more help for the fast bowlers in T20?

NASEEM SHAH: Yeah, I think in Australia, everywhere in the world when you bowl as a fast bowler you need to bowl your good ball.

Yeah, as a fast bowler you need to bowl your best everywhere in the world. We're all fast bowlers just trying to bowl our best because when you bowl bad anywhere, when you bowl bad ball, then you are in struggle. So you need your good ball everywhere.
