Quick Quotes

Q. Fantastic, Ana. That's a really good effort today and three great days. What's your reaction to the last three days, and today in particular?

ANA PELAEZ: I'm very pleased with my game, and especially the fight. Today, I mean, I think I played great. Minus-3, I think it's a good score. I had a couple par-5s with irons in my hands and wasn't able to convert that into birdies.

I think I was emotionally very stable, and finishing with that par on the last hole, I think it helped.

Overall, very happy with the week.

Q. I was going to say, you have played very consistently well throughout. What will you take from this week? What are the positives you'll take moving forward?

ANA PELAEZ: The mindset. I played my game and I was very calm throughout the week. I think that's what I learned from this week and take into the next week.

Q. It was a mature performance considering all the emotion that surrounds your group with all the family support and love and affection. How do you deal with all that and actually do you take that as a positive energy?

ANA PELAEZ: Yeah, well, I've said it before, I love when people come and watch me play. I don't feel pressure.

The opposite. I feel like very the energy and I love it, yeah.

Q. And how proud are you that you've been able to give them something to cheer?

ANA PELAEZ: Very proud. It's not something I think about, but now that I finished I can say that they had fun. It was very enjoyable for them, so I'm very happy and pleased.

Q. Just in terms of were you aware of what was

going on on the golf course, because it's been one crazy day out there?

ANA PELAEZ: Yeah, I was very aware. Like I said, I wish I could have convert those par-5s, but it is what it is. It's golf. It's still a great week.

I can't control what happens. Yeah, I was very aware. I was very calm, so, yeah.

Q. When you made birdie on 9 and walked to the 10th tee you were in touching distance. Did you think, I've got every chance to go and win on this back nine today now?

ANA PELAEZ: Yeah, yeah. I always think I have a chance, so, yeah, I was definitely thinking that.
