Q. Bryson, congratulations. We couldn't call it between you the first few holes and then you got the momentum. What was the shift?

BRYSON DeCHAMBEAU: I was just playing more of my game. I felt like this golf course was super gettable. Wedges I was at a bit of a disadvantage, but I said, let's lock in, let's focus in and not let that affect me and give myself the best chances.

I was swinging it nice out there today, really in good control of it, and the only thing I was kind of concerned about was the wedging and putting and that can get a little dicey, but I made it happen when it mattered most, and albeit I would have liked to have finished earlier, Lee is obviously an incredible competitor, and you never want to count him out.

It was a tough test of golf today. He played some pretty solid golf, and impressed with how he's playing at his age.

Q. The greens, we spoke about them a few seconds ago. They're so tough to get the pace. What are you going to take into tomorrow to get ready for that?

BRYSON DeCHAMBEAU: I'm just going to go work on the greens a bit more and hopefully get my senses, my Spidey senses all in there and dialed in more for tomorrow, and if I keep playing the way I am and make a couple more putts, I could shoot a low one.
