### Riqui Puig

#### Press Conference

LA Galaxy 3, FC Dallas 1

*Q. Riqui, your hair, what happened between Saturday and tonight?*

**RIQUI PUIG:** It's better. The color is better. It's a process. No, I want to change a little bit, 24 years with the same hair, the same color. Good news are coming, like I say, on Saturday, and that's it. I'm really happy to be here.

*Q. This game, you probably could have had a lead at halftime but you didn't. What was the key in the second half to pull this game off?*

Yeah, Dallas is a team that plays really good. They have the two pivots that they always have the ball, like Houston. At the first half, we manage really good. But I think the second half we go more direct and I think that's the point that we give the three points, and we play really well the second half.

*Q. You guys have not had a lot of home games and now you've got two in a row and I've got two wins. Is this the momentum that you guys were waiting to get to?*

Yeah, we come from a week that we go to Minnesota and Charlotte, and also, it's difficult for us when we are like all the week out and we play two games away.

But I think for us and for all the staff and the team, playing two games at home, it's really important, and also to get the six points.

And now we go to Chicago with another mentality, and I think that we need to make the nine points. FastScripts by ASAP Sports ...
