

# Washington Wizards Media Conference

Sunday, October 12, 2025

Washington, DC, USA

**Alex Sarr**

Media Conference

Raptors 113, Wizards 112

**Q. Alex, we talked to you before you played against Olivier. What was it like to go up against for the first time?**

ALEX SARR: It was fun. I feel like I'm still not realizing I played against him. But it was fun. The few minutes we played against each other, just being on the court together, it was just great, just great.

**Q. What did he say to you at the end of the game? I saw there was a little banter back and forth?**

ALEX SARR: He wasn't even saying anything. He was just screaming, and I was like, get out of here, man. It's preseason, man. Get out of here. But that's it.

**Q. It seemed like when you went in the game against him, you went right at him a couple of times. Was it a focus for you to be aggressive, particularly against your brother?**

ALEX SARR: I mean, not especially against him. I was just trying to be aggressive, whether it was him or someone else, but maybe a little more when it was him. But yeah, I feel like just having that focus and mixing up the rolls and the pops, that's been a big focus for me.

**Q. It was a real roller coaster the last 10 seconds of the game. Will hit those two free throws, and then your brother capped it off with the alley-oop. What was your reaction to that play from the bench because you obviously didn't want him to make it, but it was your brother.**

ALEX SARR: Yeah, it was annoying. It's kind of the obvious play when he's in the elbow, but we've got to learn from that and won't make those mistakes again next time around.

**Q. How did you feel going off your ankle injury and coming out to start the first half?**

ALEX SARR: Yeah, it felt good. Overall, it just felt good.

**Q. What areas would you like to build on for tomorrow night off of this?**

ALEX SARR: I feel like just us playing aggressive from the start, really not settling into the game. We're playing against teams that played a lot of games, and even if it's our second or first game, we've still got to match their pace, and I think we did a better job of that as the game went along.
