Quick Quotes

BUBBA WATSON: The course was playing tricky because the wind was variable, so it changed directions a lot, and by the end of the round it made different holes play different for other guys, and so it made it tough. The greens were lightning fast. I've never seen them this fast, making chips and shots into the green tougher. So tomorrow I just need to try to come out and just miss those two wayward shots that I hit today that cost me a lot and then try not to have the three-putts. The greens got me the first few holes because of how fast they were.
