Lee Westwood

Quick Quotes

Q. How proud are you overall of your performance this week?

LEE WESTWOOD: Really proud. I've obviously had a few things to deal with. Obviously the wrist injury was not ideal coming into the season between Saudi and Australia, and then got stuck in Dubai and got to Hong Kong late, so I had to time change to deal with, not much practice. I felt like I was swinging it well but little golf coming into Hong Kong. I played well last week and then followed it up by playing great this week. I've won the seniors event this week.

Q. How was today playing in the final round? How did it feel, the emotions, the adrenaline? Was it a great experience?

LEE WESTWOOD: Yeah, it was brilliant. It's a while since I've been in the final group when it's meant something. I was just really trying to play my own game because I'm out there with a Bryson and Joaco, two of the longest hitters in the world. So I'm playing first a lot and just trying to win my tournament, really, which made it a little bit easier because I just tried to hit as many fairways as possible and as close to the flag as possible to give myself chances because I know I'm not going to overpower this golf course playing with the two guys that I did.
