Quick Quotes

Q. Talk about the range of emotions.

MARC LEISHMAN: Definitely. I really wanted Cam to make the one on the last there, but he played great and putted great all week.

I guess to win the tournament and still walk off the green disappointed, I guess that's what this is all about, the team format.

I think LIV will be really happy with the way --

Q. How much were you paying attention to the team concept as you're trying to catch Cam? So many things going on.

MARC LEISHMAN: Yeah, like I said yesterday, it was sort of -- I really wanted to concentrate on the individual because I knew if I had as good a score as I could, the team would take care of itself. I was looking and seeing where we were, but yeah, it was really cool to be in the mix with both the individual and the team.

A lot of emotions, but it was all good.
