Quick Quotes

Q. You seem to be playing some really strong golf since joining the HyFlyers. Can you talk about your form since joining the team, and has playing with them had any effect on your game?

SCOTT VINCENT: I don't know what it is, but the second I joined them, my game just went up. It's been amazing. Obviously you want to play like this as a golfer, and we train for this, we work hard for this. We never know when it's going to happen. But it's just been really cool that it has happened right as I've joined them. Obviously you want to help the team and do well, and it's been like that so far.

Q. You've played a lot of golf in Asia, so how comfortable are you playing here, and how did the course play today?

SCOTT VINCENT: Yeah, I played a lot in Japan, and this feels very similar to a lot of the Japan courses and also the Korean courses. Felt very comfortable, familiar with the grasses. Yeah, but the course is in such good shape. It's hard to say that there was that much of an advantage, but I did feel very comfortable out there.
