Q. With Lilia Vu after an excellent round today. Chip-in, long putts, couple short birdie putts after great approach shots. Seemed like a total game. How do you assess the components of your game today?

LILIA VU: I think I did pretty well. I've been kind of recovering from a back injury, and the only goal today was to hit the ball solid. It's been kind of difficult the past couple weeks just playing through pain and trying to make contact with the golf ball.

But today that was my only focus, and turned out really great.

Q. Speaking of that injury, can you walk us through what the recovery has looked like and how are you feeling today?

LILIA VU: Yeah, I'm lucky I have a great team around me. I have two physios and great trainer. We've just kind of been working through the back spasms that happened in Asia.

Yeah, I mean, we played through the pain. I think that was -- try and like just manage it and deal with it and not let it kind of control me, and we're able to have no pain now.

So almost back to myself and really good to get a good round under my belt.
