Q. A very solid round defending your title, what went into the round today?

HYO JOO KIM: I'm so glad because I was able to start with a low score for a tournament I'm defending at. I think I was able to take the good momentum from last week.

Q. What is it about this course you're able to take advantage of and go so low?

HYO JOO KIM: I tried playing like last year at the course but the course conditions are quite different, so I'm just trying my best. My short game went well so I had a low score.

Q. A lot of low scores so far, what's it going to take to put yourself in position to keep the low scores going?

HYO JOO KIM: I finished and saw the leaderboard and saw the amount of low scores. I think I just have to concentrate about everything till the last day.
