Q. With Nelly. Obviously I enjoy following you very much on the golf course. Looked tough out there today. What does to golf course bring to the table that you don't see week in and week out?

NELLY KORDA: It's really tight off the tee. Really small greens. And a side of a lot of mosquitoes.

No, you have to hit it really well off the tee. Rough is pretty thick. Then at the end of the day it's firm and fast around the green, too.

So you got to hit some quality shots around here.

Q. I think the general consensus is we feel your game is really close. Do you feel the same way as we do?

NELLY KORDA: Yeah, I think I struck it the best I've struck it in two years at the British and my putter really let me down. Today I putted really well. Been working really hard on it.

I think it's close. I'm hoping to put together a few more good rounds. Today I didn't hit it as good as I wanted to but it's a tough golf course.

I'll take 2-under going into the next few days.
