Quick Quotes

Q. Joining us after the first round of the JM Eagle LA Championship presented by Plastpro is Hannah Green. Hannah a really strong start today. You obviously always really play well out in LA. Talk about what specifically was going well or suiting your eye today.

HANNAH GREEN: Yeah, I felt like perhaps off the tee wasn't my strongest today but the drives I did miss the fairway were in okay position. I think my approach shots into the greens really kind of helped. I left myself some good opportunities make birdie.

Sometimes you can hit it close and have a really tricky downhill putt, so a lot of times I had uphill putts. Yeah, just feel very comfortable when I'm back here in LA. Doesn't really matter if it's Wilshire or even when we played in San Francisco. I had some good results up there as well.

I just have to try and use that I guess experience here to hopefully continue to have a good tournament.

Q. Yeah. Obviously we want to take it one week at a time out here. Hard to avoid Chevron is coming up next week. How does your good performance here and good performance this season set you up heading into the rest of the week as well as next?

HANNAH GREEN: Yeah, definitely. That's kind of why I think I most of us play the week before, just to see where our game is. Obviously we have a new venue next week, which I think will probably help me as I don't really have the best track record at Carlton Woods, even though I do really like the venue.

So I think a fresh course for everyone will even out the playing field as well, but it is something that all of us are kind of thinking about, is how do we get our game in the best shape for next week. But we still have a task -- I still want to win this week and have a good result.

I'm already really lucky enough to have two of those really big trophies. A third one would be really cool. Yeah, I'll use this week as kind of a steppingstone into next week.

Q. And then a final question: Life on Tour is definitely

a grind. Do you have any physios or trainers that travel with you around the world to keep you in top condition while you exist in all these different conditions?

HANNAH GREEN: Yeah, definitely. So I've been working with a group called On-Course Osteos, guy with Aaron Bond; he kind of works with my physio that I work with back in Australia, Marty.

It's been really nice to have him, because, yes, I feel like I'm in the later part of my career and I feel like every day sometimes I just wake up and I have something going on that I need to tweak.

It's been really nice working with him. He also motivates me when I perhaps don't want to go to the gym and work out, so that's always good.

I think all of us are definitely fit enough to play out here. Sometimes having that extra help has been really good. Yeah, I'm very happy to have him a part of my team.
