Q. Just checking the leaderboard there to see where she stands. I think she's going to be pretty happy when she looks at the leaderboard coming into tomorrow. How difficult were the conditions today, and how satisfied are you with that round of golf?

CELINE BOUTIER: It was definitely difficult. The wind was so strong. It come down a little bit towards the end, but I feel like it was a challenging round.

Overall I was able to hit the ball pretty well today, so that helped me out quite a bit.

Q. Yesterday it was tough out there. When you look at the statistics for your putting Thursday and today, you talked about it earlier in the week, that's going to be a difference maker for you. What has been different, and what's been working well with the putter?

CELINE BOUTIER: I think I made a few really long putts today and yesterday, which normally doesn't happen that much. So I feel like that helped me out quite a bit.

I think just staying patient and not being -- you know, giving myself a lot of chances also helps. I've been kind of up-and-down yesterday with putting. Today was much better.
