Brooklyn, New York, USA

## Brandon Miller

**Q. I'm sure there was a lot of uncertainty with where you were going to fall. When did you find out you were going to the Hornets and what's your reaction to joining the team?**

BRANDON MILLER: When I found out, probably at least two seconds before they called me name, it's exciting. It's a dream come true. I've always dreamed to walk across the stage and shake their hand and take the pictures that we did. It's just all a dream come true. Just ready to get to Charlotte.

**Q. What do you bring to the table for the Charlotte Hornets?**

BRANDON MILLER: I know they have great players there already. For me, I can bring just a winner. I'm willing to make all the winning plays as far as on or off the court. So just yeah, a winner.

**Q. I'm sure one of the players that you're most excited to work with is LaMelo Ball, a fantastic playmaker, yourself a fantastic shooter from the outside. How do you anticipate your partnership going with him with the complementary skills you guys have?**

BRANDON MILLER: LaMelo, man, that's definitely one of the guys. He made me feel like a little brother away from home. I feel like our bond will get closer, just due to the past time. I feel like we're always going to be together, and if not, I'm probably somewhere around him.

Just seeing him at my workout was kind of just not a dream, but it's a dream come true to see all the top guys watch you work out.
