

# TREVOR SIEMIAN

## POSTGAME VIDEO CONFERENCE

January 7, 2024

Jets 17, Patriots 3

**Q. ...saw the forecast where you thought this would be a Breece game? Maybe not 36 carries, but you thought you would lean on him?**

TREVOR SIEMIAN: Yeah, probably always good thing for us if we can get him that many touches. You know, I think we saw the weather, but I didn't know how bad it was going to be. There was going to be snow and that's no problem, but it got a little wet at times. The wind was blowing.

Unique for sure.

**Q. What can you say about what Breece did today?**

TREVOR SIEMIAN: What can't he do? The guy is unbelievable. Just when you think he's bottled up or somebody will bring him to the ground he slips out of it.

You see the highlight runs, but the runs where he turns a one yarder into a three or four yarder are just as important, or loss of one and gain of two.

The guy is special. Catches the ball like a wide receiver. I can talk forever about him. I don't know if we have enough time to cover everything. Guy is pretty good at football.

**Q. You've been around this building couple times the last few years. What do you think ending this streak means for the locker room moving forward?**

TREVOR SIEMIAN: I hope it means a lot. I think there is a lot to be said winning the last game of the season, and just in my eyes just so you don't have to talk about it anymore.

I'm sure coach isn't fired up when he gets questions about that kind of stuff. Good to put it to bed.

Yeah, next year will be a new year. This team will die, but for lack of a better word, just so you don't have to talk about it anymore probably.
