## Brooke Henderson

### Quick Quotes

#### **Q. So Brooke, kind of the challenges and the lessons.**

**BROOKE HENDERSON:** Yeah, you know, this was an exciting week and I was so happy to be coming back here. It played pretty tough this week. I felt like I fought pretty hard to finish where I did. Saw a lot of positives being able to grind it out sometimes.

I feel like I'm hitting the ball a lot straighter now because you have to around this course because it's so tight. Lots of positive to take away and I'm just looking forward to next week playing with Lexi.

#### **Q. You always spend a lot of time working on putting. Were you working more on in this week? Was that part of the challenge?**

**BROOKE HENDERSON:** Yeah, a little bit. I'm always trying to work on the putter, trying to get to working a little bit better.

I feel like the first few days I made a lot of clutch saves with the putter so it was working pretty well those first two days.

Felt a little cold here on the weekend but feel like we're on the right track. Got a new putter earlier this week and I love the way it looks and feels. Lots of positives and just looking forward to the rest of the season.

#### **Q. Talking about what comes next. Who are you playing with next week, and then Evian...**

**BROOKE HENDERSON:** Yeah, playing with Lexi next week in the partner event. Super excited. She's playing great, too, so I feel like we'll make a good team. Hopefully get off to a fast start and just see what happens.

But, yeah, really busy summer ahead with Evian coming up British, Olympics, Canadian Open, so lots of really huge events.

I'm looking forward to the weeks off between pretty much all of those, and hopefully my game will be really sharp.

#### **Q. About the Olympics, how excited are you about being there with all the athletes?**

**BROOKE HENDERSON:** It's an unbelievable honor to be able to go and represent your country and wear the maple leaf and red and white, and it's pretty cool that I'll have the opportunity to do that and hopefully I'll represent them well.
