

Charles Schwab Challenge

Sunday, May 31, 2026

Fort Worth, Texas, USA

Colonial CC

Gary Woodland

Quick Quotes

Q. 67 today, you got off to a really nice start and then a good finish there. If we can get some comments on your round.

GARY WOODLAND: Yeah, it was a roller coaster, for sure. Any time you can get off to a start like that is amazing. Then kind of had some bumpy stuff going on there in the middle. To make the putts I did coming down the stretch, 15, 16, 17, 18, super proud of that. All in all it was a good week. Hopefully a little momentum going into next week.

Q. Four rounds in the 60s, so just comments a little bit about your consistency this week.

GARY WOODLAND: I drove it beautifully really until today. Today I kind of had some wayward drives. I putted it very nicely as well. Any time you can do those two things -- we'll fix, we'll tidy up the ball striking a little bit. But I'm impressed and I'm happy with the way my short game's trending. All in all, I'm excited about where the game's at. I definitely didn't get the most out of it this week, I played a lot better than what I scored, but happy with where it's at.

Q. Texas is treating you pretty well this year, isn't it?

GARY WOODLAND: It is. Texas has been really good. Unfortunately, I don't think we're coming back here the rest of the year. But it was, I had a lot of success and I gained a lot of momentum here. I love this golf course, Perry Maxwell design, I grew up playing on a Perry Maxwell design back home, so I had some success here, just some good visuals, it sets up very nicely for me as well.

Q. Projected 23rd now in the FedExCup, so really some good momentum for what you mentioned next week, but then also coming up the U.S. Open, which I know that one means a lot to you?

GARY WOODLAND: It does. And that's, this is a marathon out here. It's nice to be back in that range. I haven't been there in a long time. So it's nice to continue to play solid golf. Obviously the win was great, but to

continue to build off that, this was a nice statement for me as well.
