Brian Harman

Quick Quotes

Q. Brian, really solid day, put yourself in contention going into the final round. Take me through how it went.

BRIAN HARMAN: The back nine turned on us and got pretty tough. Si Woo is making it look easy.

Just got to shoot a low score tomorrow. The wind will be pretty similar. Get off to a good start and maybe make a few more birdies on the back nine.

Q. I know you missed the putt on the last, but putting-wise, before that putt, you were first in strokes gained for the field this round. Has it felt good? It's progressed every day, and you've gotten better statistically?

BRIAN HARMAN: Just a couple little momentum shots here and there that can kind of swing this place. You've got to -- if you're hitting greens, you're getting looks. You've got to make a few to get in contention here for sure.

Q. Do you feel -- I know you said you've got to shoot a low number tomorrow to try to win the tournament, but do you feel this course is playing where it can take some strokes back, or do you feel like you've got to shoot a low number because everyone's going to go low?

BRIAN HARMAN: It certainly can. It can go one way or another. Collin had a tough day today. You get to missing shots, it can get away from you in a hurry. Par-3s are tough. You've got to take care of those.

The only thing you can do is go out and try to shoot the lowest you can and see what happens.

Q. How do you feel about the pace of play rules? Do you think the rangefinders are helping?

BRIAN HARMAN: I think it was smart to start it this week. This is probably the fastest, as far as place that we play all year. We're in pairs all week, hasn't been super windy.

RBC *Heritage*

Course has been fantastic.

When you put us in twosomes, we're going to play in under four hours. I think we had several rounds at Torrey this year that were under four hours in twosomes. So the more that we can do that, I think the better product that we have for sure. It moves along a lot better.

I mentioned yesterday, I got asked almost the same question yesterday, it's hard for slow players to hide in twosomes. You have to keep up, or somebody's right on you getting warned, getting timed. Our rules officials have done a good job of keeping everybody moving.

But this place, with it being so flat, wind's down, we're going to play fast out here.
