Quick Quotes

Q. Guys, 68 final round, runner-up finish. Talk us through your round today.

RASMUS HØJGAARD: Yeah, we got off to a great start, hitting some lovely shots, rolled a few nice putts, as well. Yeah, we felt comfortable out there on the first nine holes, and then obviously the delay, the bad weather showed up and we struggled a little bit to get in a rhythm after but managed to fight good towards the end and post a good score.

Q. Nicolai, obviously runner-up finish really good. What takeaways can you take from this and apply it moving forward in the individual tournaments?

NICOLAI HØJGAARD: Yeah, it's an important week for us. We can build a lot and there's a lot of positives from this week. I feel like we played some good golf for the most part and still can see where our games need a bit of fine tuning. But it was a week where we could free up a little bit and try and really help each other, and we had so much fun. I really enjoyed the week. It's a long time since I really enjoyed a week like this where I could have my bro as my partner and also contend. That was pretty fun again.

Q. What about the week did you enjoy most? Was it playing well and getting yourself in the mix there at the end?

RASMUS HØJGAARD: I think all week we've had a good vibe in our little group, us two and our two caddies. Yeah, there's been good energy right from the start, and obviously we got off to building from there, and I think we did that well putting ourselves in contention. We did our best today and we can keep our head high.
