

# RBC Canadian Open

Sunday, June 2, 2024

Ancaster, Ontario, Canada

Hamilton Golf and Country Club

## Victor Perez

### Quick Quotes

#### Q. Your thoughts on the day?

VICTOR PEREZ: Obviously very pleased. I think if somebody would have told me 64 at the start of the day I would have taken it, for sure. It's going to come up just short, it seems like, but very pleased. A lot of good points for me moving forward.

#### Q. What did you learn about your self this week in your best finish so far on TOUR?

VICTOR PEREZ: Yeah, obviously I've played here and I've had some results at the time, but never as a full-time member. It definitely has a different feel when you kind of pop in and out, whereas playing through the regular season is a different feel. Obviously very happy and a lot of positive with the two 64s on the weekend.

#### Q. What did you learn about your game this weekend and how do you feel going forward into the next stage of the season?

VICTOR PEREZ: I think I've played decent kind of at the start of the year, just haven't been able to put a big result and something to really strive on for the rest of the year. I think I putted exceptional this week, which has been always a strength of mine, it's something that I haven't really been able to do at a high level. I think that showed this week and the result came with it.

#### Q. What are some things that you think you can take and build upon for the rest of the year from this week?

VICTOR PEREZ: I think when you have a good result like that you don't need to essentially think you found a solution and get ahead of yourself, I think you just try to keep doing what you're doing, regardless of whether I had a good result or a poor result and you kind of keep moving on forward with that.
