**Q. You have a three-point lead. Outside of that, what was the biggest thing you took from yesterday?**

**LUKE DONALD:** Just the resiliency of the guys, how they handled the moment, how they got off to a great start and how they finished strong. It gets loud when you cross the road but they handled it great.

**Q. You still have 20 points to play for. You need to keep up that intensity. What's the message to the team and the mindset teeing off?**

**LUKE DONALD:** We celebrated yesterday because it was a great day for us but we know there's a lot more work ahead. Keep the momentum going.

**Q. Several players on your team have played every session, and we know five is taxing. So in a way, a strength of your team, the fact it doesn't have any weaknesses, you could rest players in the afternoon and world-class players will come in to replace them.**

**LUKE DONALD:** We have a plan depending on how this morning goes either way. I'm very confident that whatever happens, we'll be ready.
