Q. Another point for Europe. Quite testing and tough conditions out there with the crowd. But you combined brilliantly to secure another point. How did you feel?

TOMMY FLEETWOOD: I felt pretty good but watching Justin Rose on the golf course is some of my proudest few hours on the golf course. I absolutely loved it. So blessed to be by his side today. Absolutely amazing, what a golfer, what a human being, and to get another point on the board for the team, obviously feels massive, and yeah, Justin, I can't speak highly enough about him.

Q. You've combined really well on this one. I did want to ask about that incident from the 15th to 16th, just to get your perspective on how that played out.

JUSTIN ROSE: Yeah, I'm really disappointed that this has to be the talking point at the end of a really cool match. The level of golf was incredible. I was ready to hit my putt. I didn't feel like that space was being honored. I may be made my feelings known. Asked him to move. Maybe not as politely as I could have done but in the scenario, it's coming down the stretch. We both have a lot on our minds and it's intense out there. I said to them, if I should have done it a different way, I apologize. But other than that, I had to step up and hit a huge putt with a lot going on. From my point of view, I was just trying to protect my own sort of environment to execute.

It's all part of it. It's up to them if they want to take it the wrong way but from my point of view, there's no malintent. Hope to win the match because Tommy and I were unbelievable today and huge match against Bryson and Scottie. We were kind of aware of what that meant not to us but to the whole place.
