Quick Quotes

BRANDT JOBE: I struggled. I think I missed the first six greens in a row today. I was getting up-and-down from a trash can, so I'm still 2-over. Like I said, I just struggled with my ball striking since I've come back, and today was just kind of another day.

It's frustrating because I feel like I get close, see some things, and then it disappears. That's kind of how this week went and how the year's gone.

Q. Is it safe to say you didn't feel in rhythm and just kind of in and out, in and out of moments you liked?

BRANDT JOBE: Definitely. Yesterday I got to where I started hitting it, and I started compressing the ball and feeling good, and that kind of left. It disappears in the rough out there.

Q. Overall, what do you think your week -- is it a positive? What do you take positive about this? What do you like about the weekend?

BRANDT JOBE: Obviously I enjoyed being here. That was something I really wanted to do. As you get older, you don't know how many more of these you're going to play in. I know I probably won't make the next one here.

I've had some success obviously up here at the Broadmoor and the state of Colorado. So to come back and be able to play this was very enjoyable.
