Q. Hannah, just take us through your round today and how you're feeling.

HANNAH GREEN: Yeah, felt like I hit the ball really well. Hit a couple loose shots coming into the back nine. The bogey on 16, 17 kind of hurt. I ran it by on the last because I really wanted to make birdie so I am just glad that I made par in the end.

Overall solid week.

Q. T13, tied for your best finish at the U.S. Open. How does that feel, and what does that do for your confidence going forward?

HANNAH GREEN: Yeah, I feel like I got -- on some of the days and some of the holes I got a lot out of the round, and some I didn't and kind of left things out there, which you always do on major championships.

It's nice to build on this form. We have KPMG coming up soon as well. Hopefully take that into those events. I haven't really played a whole lot this year. When I have I haven't really played many events in a row.

So trying to use this momentum. I have a week off next week. Going go back to Fort Worth and practice, but looking forward to the next stretch of events.

Q. Overall thoughts on competing in another U.S. Women's Open and the week?

HANNAH GREEN: I must admit the scoring is definitely a lot lower than I thought and probably what everyone thought. We been really lucky with the weather; barely a breath out there again today.

I was kind of asking my caddie, where is the wind coming from, because some shots were kind of blocked and felt like there was nothing out there. Yeah, it's played like a U.S. Open. Really enjoyed my time at Erin Hills and been a really good crowd out here.
